

Joint NORDICPedMed / PIF Nordic Conference on Pediatric Medicines 13th June, Helsinki, Finland

Nordic collaboration can increase pediatric medicines research opportunities by providing;

- Larger child population (5.2 million < 18 yrs. old)
- Strong position within Europe (Enpr-EMA) and in new European Research Infrastructure initiatives
- High-quality research environment for pediatric medicines in similar health-care systems with high-tech solutions, and unique system of national registers, patient and biological sample data, and statistics
- Scientific and administrative competence at a Nordic level
- Ethical aspects for pediatric clinical trials

⇒ Benefits for children in Nordic countries & opportunities for early access to new promising medicines

Topics

- Regulatory up-date by EMA / PDCO (Pediatric Committee)
- Network up-date by Nordic National Pediatric Research Networks and NordicPedMed
- Industry perspectives for pediatric medicines development and Nordic strengths
- New European level initiatives & infrastructures for Pediatric Clinical Trials
- Nordic area & collaboration as its best by all stakeholders – Discussion

Time: 13th June, 10:15 a.m. - 17:00 p.m.

Venue: Leonardo da Vinci Auditorium, Itämerenkatu 11-13, Gräsviken / Ruoholahti, Helsinki, Finland
